

## INSTRUCTIONS FOR EXHIBITORS, SERVICE PROVIDERS AND STAND CONSTRUCTORS

At least one fire extinguisher (ABC 6 kg) and one fire blanket (complying with DIN EN 1869 standard) should be kept available at all times.

Furthermore, flammable materials may not be kept in the immediate vicinity of the exhibit.

All floors and rear/side walls in the direct vicinity of the exhibit must be made of non-flammable materials.

Exhibits featuring open flames may not be placed directly at the edge of stands.

Please consult the DECHEMA Ausstellungs-GmbH with regard to the required positioning within the stand area.

The use of flammable liquids is subject to approval. The application form "Use of flammable liquids" has to be submitted by **22 June 2022**.

When using flammable liquids, please be sure to also refer to item 5.7.2 of the Technical Regulations.

Only the daily requirement of flammable liquids may be stored at the stand.

Empty containers that have contained combustible liquids shall not be kept or stored on stands or in exhibition halls.

For suitable storage facility please contact Messe Frankfurt's Logistics Services

[logistics@messefrankfurt.com](mailto:logistics@messefrankfurt.com). They will provide appropriate storage space at exhibitor's expense.
